**5. Farmer's Market Status  
Report**

Principal Administrative Analyst Cindy Maxwell presented the report and she introduced Mr. John Silveira of the Pacific Coast Farmers' Market Association. Mr. Silveira distributed a handout for the City Council about his organization, the sponsor of the Milpitas Farmer's Market.

At issue was the location for the bi-weekly Farmer's Market, currently hosted at Towne Center parking lot every Wednesday and Sunday. All customers, city staff and the Association would like the activity to remain in Milpitas, so a new site is sought. Staff mentioned potential need for zoning district temporary permits.

Ms. Maxwell referred to potential sites, as identified in a handout given to Council.

Mayor Esteves commented that a number of residents called him about this issue, stating they enjoy the market and want it to continue. Of course, the market brings visitors to the City. Favorable solutions were needed soon, he observed.

Various sites were discussed including the Serra Center, and downtown Milpitas. Several Councilmembers voiced support for Serra Center parking lot.

The Mayor asked for public comments.

Mr. Don Peoples, Milpitas resident, gave his view that downtown would be a great place for Farmer's Market and it would bring more people there. He offered his assistance and help as needed. He pointed out that parking would be an important aspect to this location.

Mayor Esteves inquired how many parking spaces were needed. Mr. Silveira responded that typically 75 spaces for booths were set up in a parking lot, then 40 parking spaces for the farmers, and approximately 150-200 spaces for customers.

**MOTION:** Receive the Staff Report, with recognition that time was of the essence, and that the quicker this item returned to City Council, the better for all concerned.

Motion/Second: Vice Mayor Gomez / Councilmember Polanski

Motion carried unanimously by a vote of:

AYES: 5  
NOES: 0

**6. Approve Supplemental  
Funding for Library Monday  
Hours**

Principal Administrative Analyst Cindy Maxwell presented the report, and gave a history of recent library closures due to Santa Clara County policies, and particular budget issues. Milpitas Librarian Linda Arbaugh was introduced.

Currently, the Milpitas Library is open to the public a total of 53 hours, while it used to be 62 hours/week. Cost calculations provided for opening on Mondays were presented in a report to the Council with four choices given.

Councilmembers supported additional hours, especially on Mondays, and stated concerns about informing the public about any proposed change in library operating hours. More public information may be needed.

Councilmember Livengood inquired about the fact that while the Council requested last August that the library Joint Powers Authority use City money to keep the library open on Mondays and was rejected, but apparently now the JPA would accept City funds for library operations? Councilmember Giordano responded that the JPA has changed their position on City funding Monday hours (vs. past).

Much support was voiced for maintaining the library open for the public until 9:00 PM and for the library opening at a similar hour each morning.

Councilmember Livengood thanked the County Library JPA for the opportunity to increase Milpitas Library hours and he wanted to give them credit for accepting city funding into the current JPA.

MOTION: Approve identified Options C and Option D together (opening library 10 AM – 9 PM Mondays plus Tuesdays 10 AM – 12 Noon), to approve budget amounts necessary for those options (total of \$310,857), and to cancel the previously approved Milpitas High School extra hours in FY 2005-06 option.

Motion/Second: Councilmember Livengood / Vice Mayor Gomez

Motion carried unanimously by a vote of:

AYES: 5

NOES: 0

## **9. Library Operation Alternatives**

Principal Administrative Analyst Cindy Maxwell presented the report. She reviewed the need for an update to a previous report about Milpitas library services within the Santa Clara County district. The new report called for by Council would increase the number of cities to compare against Milpitas to four, provide for better benchmarking, and called for possible alternative models of operation. In the report to Council was a lengthy update to the 2003 study.

Also, a draft Request for Proposals was presented to solicit a consultant, a draft agreement and scope of services. Staff recommended that the Council receive and file this report, and approve the RFP and budget item (\$60,000) to pay for the services.

Mayor Esteves expressed his concern for 1) scale of operations and 2) the excellence of the service that the County provides to Milpitas now.

Councilmember Giordano stated she believed it was a short term investment for long term yield, and that the recommendation was very appropriate at a good time.

Ms. Maxwell said staff would return to Council in October with the selection of the consultant, then would entail four months for the study, with a final report due back in February or March 2006.

Councilmember Polanski asked whether the consultant's report would go before the Library Advisory Commission ("LAC") to get feedback? Ms. Maxwell responded, no, since staff was not asked to do so. She pointed out that the LAC did not review the first 2003 report.

Councilmember Polanski would like that Commission to review the new consultant report to provide any feedback, as well response on going out for proposals on the consultant. Mayor Esteves agreed with her with respect to the LAC's role.

Councilmember Giordano commented that Council did not bring the subject of additional hours to the LAC either, and Council could go forward on spending for this now,

MOTION: request staff to issue Requests for Proposal for a library consultant, and that prior to starting his/her work, the staff bring to the Library Advisory Commission the basic information presented to Council at this meeting, and if any comments before the consultant begins, make those known then Council can move forward with the LAC comments known. The motion also included allocating \$60,000 in funds to cover costs.

Motion/Second: Councilmember Livengood/Vice Mayor Gomez

Motion carried by a vote of:

AYES: 4

NOES: 1 (Esteves)

## ORDINANCES

### **13. Introduce an Ordinance 139.3 Granting a Franchise to Comcast**

Director of Information Services Bill Marion discussed this topic introducing an Ordinance 139.3 Granting a Franchise to Comcast of California/ Colorado/ Florida/ Oregon, Inc., to Construct, Operate, and Maintain a Cable System in the City of Milpitas, California Setting Forth Conditions Accompanying the Grant of the Franchise; Providing for Regulation and Use of the System and the Public Rights-of-Way and Prescribing Penalties for the Violation of the Provisions Herein.

He gave an overview of the history of franchise renewal negotiation, steps in that process, the compilation of needs assessment, the negotiation process, and now before the City Council the adoption of the franchise as a City ordinance. He referenced the Telecommunications Commission's involvement, too, in the negotiation process.

The needs assessment identified seven areas of concern:

1. Customer Service
2. On-line Channel Directory (program guide)
3. Service Quality
4. Compliance to Applicable Codes
5. PEG Channels and Local Public Access
6. Cultural Programming
7. Emergency Broadcast Capability

Furthermore, Mr. Marion stated those concerns in his report and addressed how these would be met. The major need identified was public education. Therefore, an additional public channel was recommended for Milpitas, and this yielded the requirement that Comcast provide another public access channel and a studio under this new agreement.

Also, Mr. Marion explained that presently Milpitas had only one outlet for government, via Channel 15 only. Ideally, three channels would meet the identified community needs for: education, community access and government. In cooperation with the school district in Milpitas, the new franchise calls for a "shared" channel in order to meet two of the needs together: educational and public access.

Mr. Marion mentioned the response to a need for additional diverse programming to reflect the City's demographics, and Comcast has added nine additional international channels for subscribers at no additional cost.

Councilmember Livengood stated that on School District property might not be the best choice location for a public access studio. He strongly urged finding a better choice than a school site for a cable television studio.

Mr. Marion stated that the Telecommunications Commission had a school district representative serving, who actually provided that suggestion. Mr. Livengood was concerned about expensive equipment on a campus site, especially with no students or staff located and working there over summer.
